

HOW TO SET UP YOUR WALLET

Step 1: Download Coinbase App from your app store to your smartphone.
(insert graphic)

Step 2: Fund your Coinbase account with US dollars using your Debit, PayPal, Apple Pay or Google Pay. (happens quickly, but could take up to 20 minutes) (insert graphic)

Step 3: Buy Polygon MATIC tokens. Our initial NFT is selling at \$100 per token, but crypto currencies fluctuate in value, so with transaction fees, we recommend you purchase \$110 in Polygon MATIC tokens for each Seedheadz NFT you would like to purchase as a cushion.

Step 4: Download Metamask app from your app store and set up a Metamask wallet on your smartphone. You will get a Metamask wallet id
(insert graphic)

Step 5 Transfer Coinbase funds to Metamask Wall (this could take up to 4 days from purchasing our Poly MATIC coins on coinbase).

- Clicking send on your Coinbase app.
- Copying your Metamask Wallet Address from Metmask by clicking on your wallet ID to copy to your clipboard.
- Paste from Clipboard to 'recipient address' (wallet address) (usually takes less than 10 minutes)

Step 5 Go to our website and click on the minting button to enter your Metamask ID.
